

Gorgeous Photo Guest book 8"x 8"

Leather-like finish and stitched details give your guest book a polished, high-fashion look. This post bound book comes with 50 pages printed front and back and 20 page protectors! This amount accommodates the signatures and photos of 100 different couples. Additional pages are available in lots of 20 for \$10.00.

Guest Book Colors:

Available in Black, Brown, navy Blue, Raspberry (dark pink), Red, or light pink.

Custom Options:

The pages can be customized with a saying of your choice, your color choices, and even font choices. The first page can be printed with your names, location, and wedding date (or anything else you may want). The standard album has several lines below the photo box for guests to write a note. To accommodate larger numbers of guests without spending money on additional pages, you may opt to have two photo boxes per page and one line below for the guests to sign their names. I also offer custom drawings of the bride & groom and wedding party that makes a super cute first page (and VERY cute program). Please email [Admin@Sondrasink.com](mailto:Admin@Sondrasink.com) to request more samples/themes.

To get the photos:

Have the guest book at the church or reception and appoint one (or two) friends to take pictures of your guests as they sign the book. Digital cameras work great, then you can either print the photos yourself or have a photo lab do it!

Putting it all together:

Once your photos are printed, simply adhere the photos into their space with double sided tape. Then you have the option to leave them as is or trim the pages down and insert them into the top-loading page protectors to protect the pages. These albums are Archival safe.

There is a CD/DVD pocket in the back of the book to hold the photos from the event! Just burn the photos to CD/DVD and stash it there so you will always know where it is! Also a great place to store the extra photos that don't make it in the album.

Why would you want this rather than a Polaroid album?

The Polaroid album kit is \$135.00 (includes an album with space for 30 photos, a Polaroid camera, and enough film for 40 photos), the book without the camera or film is \$60.00! The quality of Polaroid pictures is inferior and they don't last as long as printed pictures from a lab. Why use them in such a special keepsake? Self printed photos using an HP, Canon, or Epson printer (or even a photo lab) last much longer than Polaroid pictures (more than 100+ years).

While there are some Polaroid photos taken in the 1960's that are still around and in good shape today, they can't be exposed to air 24 x 7 and the life of the photos can be up to 50-some years.

But why take the chance? And why spend money on the camera, film, and an album that only holds 30 photos?? Most people already have digital cameras they can use AND the cost to print the photos yourself (or at a photo lab) is much less than the cost of Polaroid film and a camera you might never use again.

The Adesso Ultimo (an upgrade from the regular Polaroid albums) lets you choose 30 or 60 pages. The Adesso Ultimo is hand bound in leather and is a custom order, but it costs a whopping \$325.00! Beautiful, yes, but VERY expensive! And it may not even last much past your Golden Wedding Anniversary!

The international shipping rates the EBAY inputs are wrong. please contact me before buying for actual rates as they are your responsibility. The canadian rates are; Express mail 3-5 days delivery \$28.50, Priority Flat Rate International mail 6-10 days delivery \$23.00, or First class international mail with no actual shipping time frame (can be up to three weeks) at \$15.46. Insurance is available. First Class Must be Insured.

Delivery Options:

Pick up is free. Shipping rates for US are actual shipping costs. Flat Rate USPS Priority box is \$8.95.

I do not send regular parcel post because it is too slow and unreliable.

For faster delivery Express USPS box delivery is \$28.95
